

## Consulting Services Overview

### Auditing:

#### Workplace H&S Audit

This audit will provide a detailed “snapshot in time” and further assist the organization with prioritizing safety issues accordingly. Long-term savings to the company by implementing recommendations that focuses on prevention.

Health & Safety Legislative requirements / topics included, but not limited to, in the Workplace Safety Audit are:

<b>Workplace Inspections</b>	<b>Ergonomic Assessments</b>
<b>Incident Reporting &amp; Investigations</b>	<b>Emergency Response</b>
<b>Job Hazard Analysis</b>	<b>JHSC and H&amp;S Reps</b>
<b>Retaining Records</b>	<b>WSIB Claims Management</b>
<b>Return To Work</b>	

#### Pre-WorkWell Auditing

Through the evaluation of the facility’s workplace Health & Safety through use of the WSIB WorkWell Audit, Levitt Training & Consulting can assist the client to prepare a facility for any up and coming Health and Safety audits that may be on the horizon. Additionally, we can assist facilities if they have already been through a WorkWell audit, and are working towards achieving compliance for re-evaluation.

#### Confined Space Entry

This audit will assist facility with determining number of confined spaces to be considered for their program by visiting locations of employer-identified potential confined spaces.

- Written report with recommendations
