

WHMIS – AN INTRODUCTION

All employers in Canada are required, by law, to provide WHMIS (Workplace Hazardous Materials Information System) training to workers who work with, or in proximity to controlled products. Workers may be required to work with hazardous materials that are new to the workplace, or previously installed - requiring repair, maintenance or removal.

Handling hazardous materials requires effective handling procedures, personal protective equipment and most importantly, training. Training must be provided: to new employees; when new products arrive in the workplace; and **at least annually, as a review.**

Training Solution – Online WHMIS Introduction Course

This course will introduce workers to the concepts of WHMIS. Knowing about WHMIS can help keep your work environment and your co-workers healthy and safe. In addition, WellNet Solutions has created a condensed version of this course, entitled **WHMIS Refresher.**

Course Overview

Upon completing **WHMIS – An Introduction**, participants be able to:

- Understand the theory and legislation regarding WHMIS
- Identify the 6 classes and 8 symbols of controlled products
- Determine how hazardous substances can enter the body
- Understand the roles and responsibilities of the employer, supplier and the worker
- Distinguish between supplier and workplace labels
- Understand the various sections of a Material Safety Data Sheet (MSDS)
- Become familiar with control measures, including “at the source”, “along the path” and “at the worker”

Online Course Offers Convenience and Efficiency

These courses are powered by the **Link2eLearning** LMS (Learning Management System), so you can track course progress and completion. Each training solution provides quizzes, a final exam and a course completion certificate.
